Review:	
Support:	Please provide the name, relationship and contact number of any person supporting your patient in respect of this referral, who SPOA can contact, if necessary:

Urgency of assessment: <i>- this is based on your clinical judgement and risk assessment</i> <i>- however following triage by mental health professionals timeframes to assessment may be amended – you will be notified of referral outcome by letter or email, following triage</i>	☐ Same day/within 24 hours, (a clinical discussion is now a pre-requisite for this category) please note this suggests the patient requires admission to an acute psychiatric hospital or requires immediate access to crisis intervention (24 hour/7day service) due to acute psychiatric crisis and/or risk of significant or repeated self-harm or suicide attempt				
	☐ within 7 days – <u>only</u> for possible first presentation of psychosis ☐ Within 1 to 4 weeks of referral for all other referrals that do not fit within the above two categories, but who require assessment and treatment by secondary mental health services ☐ Referral to Healthy Minds/IAPT services <i>Please note GPs can refer directly to these services, without having to refer to SPOA by:</i> • Writing directly to BHM • Sending fax to 0121 301 5071 (North BHM) 0121 301 3379 (Central BHM) 0121 301 3858 (South BHM) • Email: bsm-tr.birminghamhealthyminds@nhs.net • Telephoning 0121 301 2525 <i>There is a specific BHM referral form for direct referrals.</i>				
☐ For advice and guidance – see top of page					
Is this patient known to the mental health services Yes ☐ No ☐ <i>, if yes, and the patient is actively in treatment, you do not need to re-refer via SPOA, please contact the current team directly, to avoid any further delay</i>					
Reason for referral – Referrals may be declined without this information <i>Please provide a narrative of your concerns about this patient's mental state to include why he/she requires secondary mental health services and what you require from our assessment:</i>					
<i>Please attach or confirm:</i> PHQ Score: MMSE Score and/or 6 Item Cognitive Impairment Test:					
Risk to self or others - please use the risk tool below: <i>Please ensure you answer all of the following for the safety of patient, staff and the public::</i>
