Staffordshire and Stoke ICB

ADHD Assessment – Right to Choose Referral – Part C

Instructions for completion:

1. **BEFORE PROCEEDING, please check that BP, Pulse and BMI have been recorded within the past 3 months.**
2. This form should be completed by the patient's GP or submitted further to their instructions.
3. The information completed by the patient and their associate MUST be uploaded when this form is submitted.
4. Additional clinical information may be requested if information that is pertinent to this request is not provided.
5. Missing information or incomplete application forms will delay the decision and may delay patient care.

Please note that all information received will be used and stored in accordance with the Data Protection Act 2018 and UK General Data Protection Regulation (UK GDPR). Information will not be held for any longer than is necessary for the processing of the request and will be held securely until destroyed under confidential conditions in accordance with the ICB's Records Management and Data Destruction policies.

Patient Information		GP Information	
SURNAME:	Surname	GP Surgery:	Organisation Name Organisation Full Address (single line)

PLEASE NOTE: If any answer is within a "GREYED" box DO NOT REFER via the Referral Management System and the patient is not suitable for a Right to Choose referral. If they are moderately or severely impaired by their ADHD symptoms, please refer to MPFT / NSCHT

Screening Questions	Yes	No
Does the patient have an existing diagnosis of ADHD?	☐	☐
Is the patient willing to attend and actively engage in the clinical assessment and attend additional titration appointments (if required)?	☐	☐
If this patient has indicated that they currently have suicidal ideation, have you assessed the patient to confirm they are suitable for remote assessment and management by an RTC provider? <i>*If YES - insert a comment in section (e) noting the outcome of your assessment</i>	* ☐ n/a ☐	☐
Has this patient self-harmed or attempted suicide within the past 3 months?	☐	☐
Is this patient regularly using cannabis? (this includes self-medicating to manage ADHD symptoms)	☐	☐
Is this patient using any other illegal / non-prescription drugs?	☐	☐

Is the patient drinking excessive alcohol?	☐	☐
Is this patient willing to take life-long prescribed medication for ADHD?	☐	☐
Is the patient currently receiving treatment from the local NHS mental health service OR have they been referred and are awaiting an assessment from the local NHS mental health service? *If YES - please provide details of the confirmed or suspected diagnosis, proposed or active treatment and the contact details for the treatment team in section (i) below.	☐	☐
Does this patient require any of the following: - in-person (face to face) appointment? - interpreter for language? - hearing loop or interpreter to support hearing impairment? *If YES - please ensure that details are provided in the reasonable adjustment section below	☐	☐
Has the patient and their associate completed and returned the additional information which explains how the patient's life is impaired by their ADHD symptoms?	☐	☐

Autism Spectrum Disorder (ASD) and Combined Assessments

A referral for a combined ASD and ADHD assessment is clinically appropriate when the patient:

- meets the criteria for an ASD assessment under 1.2.2 of NICE CG142, **and**
- scores 6 or above on the AQ-10, as recommended in 1.2.3 of NICE CG142, **and**
- meets the referral threshold for an ADHD assessment under NICE NG87.

PLEASE NOTE - If both ASD and ADHD may be contributing to the patient's impairment, the ADHD Referral Management Service (RMS) will assess only whether the threshold for an ADHD assessment is met.

The patient's GP is responsible for deciding whether the threshold for an ASD assessment is met.

PLEASE TICK ONE OF THE FOLLOWING:

- ☐ This patient is not requesting an ASD assessment **OR**
- ☐ This patient does not meet the threshold for referral for an ASD assessment **OR**
- ☐ This patient is seeking an ASD assessment **AND**

I am satisfied that the criteria for an ASD assessment under 1.2.2 of NICE CG142 **AND**

The patient scored 6 or above on the AQ-10 (see 1.2.3 of NICE CG142) **AND**

If an ADHD assessment is approved, I will refer the patient for a combined assessment to:

Mantle Psychology – the patient is willing to travel to Hathersage, Derbyshire ☐

Oakdale Centre – the patient is willing to travel to Harrogate, Halifax or Horsforth ☐

REASONABLE ADJUSTMENTS

Please indicate if any of the following reasonable adjustments are required :(tick ALL that apply)

☐	Easy Read	☐	Longer appointment
☐	Large Print	☐	In person (face to face) appointment
☐	Braille	☐	Wheelchair access
☐	Hearing Loop	☐	BSL Interpreter
☐	Accompanied by Carer / Support Worker	☐	Interpreter – language:
☐	Learning Disabilities		

Previous ADHD referral information	
Is this patient already on the waiting list with the locally commissioned provider (i.e., MPFT or NSCHT) for an ADHD assessment?	☐ YES ☐ NO

Shared Care Agreements	
If this patient is diagnosed with ADHD, are you, the patient's GP, willing to enter into a Shared Care agreement with the Right to Choose provider to enable ongoing prescribing and medication reviews?	☐ YES ☐ NO

Choice of Provider

PLEASE PLACE A "X" IN ONE BOX ONLY TO CONFIRM THE PATIENT'S CHOICE OF PROVIDER, FOLLOWING THEIR CONSULTATION WITH YOU. Please note that if no provider is selected, we will rely upon the selection made by the patient in Part A.

GP DECLARATION:

By providing the information requested and signing below I confirm that the following statements are correct and true:

- The patient's request for an ADHD assessment has been discussed with the patient and/or the patient's representative.
- The patient has been informed that an NHS funded ADHD assessment is only clinically appropriate if their life is moderately or severely impaired by their symptoms.
- The patient has been informed that the information provided will be used to determine whether they are eligible to be referred for an NHS funded ADHD assessment and if so, whether a Right to Choose provider is able to meet their clinical needs; and that if not they will be referred to the locally commissioned provider for the assessment.
- The patient has given their consent for all information submitted in support of this application to be shared with MLCSU.
- Where the patient's name is on the waiting list for an ADHD assessment with MPFT / NSCHT, I have informed the patient that the outcome of this assessment will be shared with the local provider, and their name may be removed from the local waiting list.
- I understand that if this patient meets the clinical threshold for an ADHD assessment and can be accepted by a Right to Choose provider the information submitted in support of this request including Parts A, B and C, will be sent to the Provider nominated by the patient, on my behalf, as a referral under the Right to Choose pathway.
- I understand that if the patient meets the clinical threshold but is not suitable for a Right to Choose referral the information within this form including Parts A, B and C will be sent to MPFT / NSCHT and I confirm that the patient has consented to this.
- The patient also consents to their clinical information being used, if required, for the purpose of clinical audit.
- The patient understands that their information will not be shared with any person who is not involved in processing this request or arranging and providing an ADHD assessment and/or treatment for them.
- The patient understands that they have the right to withdraw their consent at any time.
- The patient has been informed that the Commissioner's full Privacy Notice can be viewed on their website.
- I understand that MLCSU will send a copy of the outcome letter to the patient via secure email.

GP Signature

*The name of the referring GP must be included.
Right to Choose providers only accept referrals from GPs.*

PLEASE ENSURE THIS BOX IS COMPLETED BEFORE THE REQUEST IS SUBMITTED

PART C: Information from GP records

Please provide summary details of any relevant clinical history within the patient's GP records, including the impact of any pharmacological or therapeutic treatment or referrals made:

(a) Current health issues

e.g., anxiety/depression, psychiatric conditions, neurodiverse conditions, alcohol / drug issues, cardiac issues

(b) Significant past health issues (within the last 5 years)**(c) Current medications (issued within the past 3 months)****(d) Please provide details of any psychiatric or cardiac medication that have previously been prescribed and the dates on which these medications were stopped.****(e) History of suicidal ideation or attempts****(f) Risk taking behaviours / self-harm / self-neglect**

(g) Current or historic involvement with CAMHS		
(h) Have any safe-guarding issues for the patient, their children or partner been disclosed to the GP owing to the patient's behaviours? If so, please provide details:		
(i) NICE guideline NG87 advises that Adults should be referred for an ADHD assessment where there is evidence of typical manifestations of ADHD (hyperactivity/impulsivity and/or inattention) that began during childhood and have persisted throughout life, are not explained by other psychiatric diagnosis and have resulted in or are associated with moderate or severe psychological, social and/or educational or occupational impairment. Please provide any further information which demonstrates that the patient meets the above criteria:		
Right to Choose Providers also require Blood Pressure, Pulse and BMI information. Please provide readings for each, and the date on which those readings were taken:		
Test	Result	Date
BP (Mandatory)	Single Code Entry: O/E - blood pressure reading	Single Code Entry: O/E - blood pressure reading
Pulse (Mandatory)	Single Code Entry: Pulse rate	Single Code Entry: Pulse rate
BMI (Mandatory)	Single Code Entry: Body mass index	Single Code Entry: Body mass index
