

UHNM Heart Failure Referral Form

Patient Details		Referrer Details	
Name:	Given Name Surname	Name:	Free Text Prompt
NHS No:	NHS Number	Address:	Organisation Full Address (single line)
DOB:	Date of Birth		

☐ You suspect the patient might have heart failure
☐ You know the patient has heart failure and want them reassessed
☐ The patient is already known to MPFT Community Heart Failure Team – please refer directly back to them.

You have checked the BNP within last 3 months and it is	
Less than 400	Heart failure is unlikely. Please consider alternative diagnoses and tests
400-2000	Heart failure is possible. If clinical signs and symptoms of heart failure, please request an open access echocardiogram and consider referral back to the team if Heart Failure indicated.
Greater than 2000	Heart failure more likely. Please attach 12 lead ECG to referral. (if you are unable to obtain an ECG then please confirm that a pulse check has been undertaken, and rate is regular and below 100bpm noting that AF can elevate the NT pro BNP.) Patient will be triaged for assessment in Rapid Access Heart Failure clinic.

Signs and symptoms: -	
☐ ECG ATTACHED / PULSE RATE CHECK	
GP SUMMARY SHEET ATTACHED	See below

If you want to discuss any aspect of the referral or feel that the patient needs to be seen urgently then please call 01782 672800 / 01782 671077 – Please note your referral will be rejected if the appropriate information is not attached.
