

Send referral form via E-Referral:

Speciality: gynae

Clinic: infertility

SSOT ICB INFERTILITY REFERRAL
FORM

This form must be completed prior to referral to a secondary care fertility assessment clinic. **Please note that fertility referrals are for the couple and information must therefore be provided for both partners.**

Incomplete forms may be returned to the referring GP for further information before any assessments / further investigations will be undertaken.

Please search for secondary care infertility assessment clinics on e-RS under the gynaecology speciality, clinic type: infertility

Please upload this referral form and attach any relevant test results, semen analysis reports
