

East and South East Staffs NHS Pulmonary Rehabilitation Service Referral Form

Pulmonary Rehabilitation	
Inclusion Criteria → Confirmed diagnosis of chronic lung disease (COPD, bronchiectasis, ILD, chronic asthma, chest wall disease) or pre/post thoracic surgery → Post-covid (12 weeks+) without a diagnosed respiratory disease, with ongoing symptoms of dyspnoea → MRC 3 or above (MRC 2 accepted if symptomatic & disabled by their condition) → Mobilises independently with or without walking aid → Optimised medical therapy for disease severity → Motivated to attend and complete programme	Exclusion Criteria → Unstable angina/cardiac disease → Acute LVF → Abdominal aortic aneurysm >5.5cm → Uncontrolled hypertension/arrhythmia → MI within last 6/52 → Unable to mobilise safely (e.g. arthritis, balance problems) → Compliance issues (e.g. dementia)
Pulmonary Rehabilitation Service Overview	
We offer a tailored programme of exercise and education. This improves the patient's exercise tolerance and functional performance, to reduce their symptoms and their disability with the aim of improving their quality of life and promoting self-management. Each patient will be individually assessed prior to being offered a course in a local venue or remotely. Pulmonary Rehabilitation consists of two supervised sessions per week for 6 weeks, with an individually prescribed home exercise programme.	

Patient informed consent to:	Yes	No	Not asked
