URGENT

URGENT REFERRAL FOR SUSPECTED HAEMATOLOGY CANCER CHILD 0-16 years

(Version 1.0) If you wish to include an accompanying letter, please do so.

PHONE FOR ADVICE & FAX completed form to a number on page 3.
A fax only is an inadequate referral All referrals MUST be discussed with the relevant medical team (see below)

These forms should only be used for suspected cancer and in conjunction with the NICE Referral Guidelines for Suspected Cancer, June 2005

Patient Details
GP Details (inc Fax Number)

Surname Mickey		Darwin Medical Practice Greenwood Health Centre, Lichfield Road, Burntwood, Staffordshire, WS7 0AQ Tel No: 01543682654 Email: darwinmedical.practice@nhs.net Practice code: M83617	
Forename Mouse 10-Feb-2000			
D.O.B. 10-Feb-2000	Gender M		
Address St Chads, Cannock, WS7 0EW			
Postcode WS7 0EW			
Telephone		Date of Decision to Refer Date of Referral 07-May- GP Signature	
NHS No			
Hospital No			
Interpreter? Y First Language:			

Relevant information: (Check as appropriate)

Symptoms/Signs in child 0-16:

Pallor ☐	Recurrent infections ☐	Generalised lymphadenopathy ☐
Bruising / Petechiae ☐	Bone Pain ☐	Unexplained irritability ☐
Fatigue ☐	Breathlessness ☐	Mediastinal mass ☐
Fever ☐	Weight Loss ☐	Persistent unexplained Hepato/splenomegaly ☐

Additional Features:

1. A baseline full blood count should be done by GP if persistent/severe features as above.
2. If full blood count and film indicates Leukaemia make urgent referral.
3. There are associations between Down's Syndrome & Leukaemia and some other rare syndromes. Be alert to the potential significance of unexplained symptoms in children with such syndromes.

Investigations:

ESR No events found.

Blood film No events found.

X-ray

Urea & Electrolytes No events found.

Full Blood Count 12-Sep-2025 **Full blood count**

Clotting screen No events found.

Liver/Bone profile No events found.

Clinical Details: History/Examination/Investigations**Medication:****Medication**
Acute

Drug	Dosage	Quantity	Last Issued On

For Hospital Use Appointment Date _____ Clinic Attending _____ Was the referral appropriate Yes No (if no please give reason)		

Why has my child been given a 'Two Week Wait' hospital appointment?

What is a 'two week wait' appointment?

The 'two week wait' or 'urgent' appointment was introduced so that a specialist would see any patient with symptoms that **might** indicate cancer as quickly as possible. The two week wait appointment has been requested either by your child's GP or dentist.

Why has our GP referred my child?

GPs diagnose and treat many illnesses but sometimes they need to arrange for your child to see a specialist hospital doctor. This could be for a number of reasons such as:

- The treatment already given by your GP for your child's symptoms has not worked.
- Your symptoms need further investigation.
- Investigations arranged by your GP have shown some abnormal results.
- Your GP suspects cancer.

Does this mean my child has cancer?

Most of the time, it doesn't. **Even though you are being referred to a specialist, this does not necessarily mean that your child has cancer.** More than 70% of patients referred with a 'two week wait' appointment do not have cancer.

What symptoms might need a 'two week wait' appointment?

- A lump that does not go away.
- A change in the size, shape or colour of a mole.
- Abnormal bleeding.
- A change in bowel or bladder habits.
- Continuous tiredness and/or unexplained weight loss.
- Other unexplained symptoms.

What should I do if my child is unable to attend an appointment in the next two weeks?

This is an important referral. Let your GP know immediately (or the hospital when they contact you) if you are unable to attend a hospital appointment within the next two weeks.

What do I need to do now?

- Make sure that your GP has your correct address and telephone number, including your mobile phone number.
- The hospital will try to contact you by telephone to arrange an appointment. If they are not able to make telephone contact, an appointment letter will be sent to you by post.
- **Inform your GP surgery if you have not been contacted by the hospital within three working days** of the appointment with your GP.
- You will receive further information about your appointment before you go to the hospital. It is important you read this information and follow the instructions.
- Please feel free to bring someone with you to your appointment at the hospital.

It is important to remember that even though you will receive a 'two week wait' appointment, being referred to a specialist does not necessarily mean that you have cancer. Remember, 7 out of 10 patients referred this way do not have cancer.
